

Onboarding

Communication

Obligations

What information was missing from the onboarding?

If there are people who joined after the project started.

What is the most important thing to improve related to inside team communication?

What, if any, are the contractual obligation the customer has to fullfill to enable project success?

Think about required upstream changes, delivered information, PO availability

crd-442

crd-443

crd-444

Working location

IPR ownership

Libraries

Does the contract stipulate where the work should be carried out?

Who own the Intellectual property rights?

Is there any limitations when it comes to choosing libraries, frameworks etc.?

Some organisation have limitations in the shape of a blacklist (or whitelist) for 3rd party libraries.
