

Sprint backlog

Product backlog

Reporting

Where is the sprint backlog?

Who does the invoicing?

What is expected in terms of progress reporting?

Easier

QA Budget

Our motivation

Given the business objectives and constraints, can the project be done easier?

If there is something, there could be a lack of understanding.

How much budget is reserved for QA?

Why don't we just walk away from the project?

QA roles

PM services

PM budget

Are their dedicated QA specialists available and what is their role?

What PM services are required to be done by the team? And is this budgeted?

How much budget is reserved for PM services?

Think about invoicing, reporting, meetings, finding new team members,

PM services are things like invoicing, reporting, meetings, finding new team members,
